

## IMPORTANT NOTICE

The following WABCO Electronic valves require setting or calibration when being replaced

**PLEASE NOTE :** Not all WABCO Distributors are equipped to perform the necessary “sign-off” of these components

PART NUMBER	DESCRIPTION
441 050 xxx x	Distance Sensors (Electronic Levelling Valves) Truck & Trailer
480 102 xxx x	Trailer EBS Valves & Computer
400 500 xxx x	Trailer ABS Valves (Require initialisation in some instances)
446 122 xxx x	Trailer ELEX Computer, Park Distance Control & EBS
970 150 xxx x	Electrically Activated Clutch Servo's

- In some instances it is possible for calibration to be carried out at WABCO Head Office without the valve being physically fitted on the vehicle or trailer.
- Where the calibration is to be done after fitment, aftermarket and fleet customers will need to make use of an Approved WABCO Gold Service Partner to ensure correct installation. \*\*

\*\* Although WABCO SA does not levy a charge on calibration performed at WABCO Head Office (either fitted or unfitted to a vehicle); you may be subject to a charge imposed from a Gold Service Partner should you have not have used their services in purchasing the component.

Contact WABCO Sales or Technical Staff on +27 11 450 2052 for further assistance.
